

# ERIK NORDLUND

## PROFILE

Erik Nordlund is an Electrical & Computer Engineering student at Oregon State University (Class of 2021), with focuses in signal processing and artificial intelligence. In his free time, he enjoys playing guitar, staying active, and working on personal projects. He enjoys contributing to teams to solve problems, and taking a detail-oriented approach to his work.

## EXPERIENCE

### **CONTRIBUTING EDITOR, PHONEDOG MEDIA** 2014-2017

As a contributing writer for the website Today's iPhone, Erik wrote editorials, reviews, and news articles regarding technology. The position required coordination and scheduling with other writers in several time zones. This experience strengthened his skills in writing, and producing quality work with short deadlines.

### **SEASONAL PACKER, TARGET** 2016

The position of Seasonal Packer involved filling orders to be shipped on time from a distribution center to retail locations in the greater Northwest. This was a good experience for learning on the job, and meeting high expectations of performance.

### **TECHNICAL SUPPORT ADVISOR, APPLE** 2019

Working as a technical support representative for Apple demanded a high level of problem solving abilities, and constant personal development. The position provided endless learning opportunities, and a great amount of perspective on a wholistic approach to product design, including supportability.

## EDUCATION

Southridge High School, 2012

Attending Oregon State University, Electrical Engineering, Class of 2021

## STRENGTHS

- iOS development (UIKit, SwiftUI)
- Embedded development (Arduino, ESP-IDF)
- Web development (PHP, MySQL)
- Technical and copy writing
- Fast learner
- Committed problem solver
- Detail oriented
- Excellent communicator
