### Objective

I am graduating from Oregon State University in June 2020 and I am anticipating the beginning of my career in Computer Science. I am looking for a job that will challenge newly acquired skills, and encourage me to grow and expand my knowledge.

### Education

- **Oregon State University**      **Sept 2016-June 2020**      **Corvallis, OR**  
**GPA: 3.32**  
**Coursework** requires some use of Linux, and includes courses in C++, C, Web Development, Operating Systems, Software Engineering (design, development, and testing), Networking, Databases, Digital Logic Design, Theory of Computation, Algorithms, and Data Structures.
  - Expecting to graduate June 2020.
- **Lane Community College**      **Sept 2009-June 2013**      **Eugene, OR**  
**GPA: 3.6**  
**Graduated** with an Associates of Applied Sciences, as well as associate certificates in Web Development and Database Management. Coursework included PHP, C++, C#, ASP.NET, SQL, MySQL, Oracle, JavaScript, HTML, CSS, and MSSQL.

### Employment History

<b>Domino's</b>	<b>03/01/2019-03/25/2020</b>
Delivery Driver	10-20 hrs/week
I drove my car to deliver food to customers. I also pulled food out of the oven, prepped it to go, and cleaned the store as needed.	
<b>City of Eugene</b>	<b>06/18/2018-09/01/2018</b>
Landscaper	40 hrs/week

I drove an oversized cart with a 120 gallon drum of water on a trailer behind it on the sidewalks of Downtown Eugene watering the flowers as a summer job.

**A Family for Every Child**

**06/17/2013-09/01/2016**

Web Developer

40 hrs/week

- Coding in PHP, JavaScript, CSS, and MySQL to build web pages.
- Troubleshooting and fixing bugs in web pages.
- Used a connection to Salesforce to access and modify data in a Salesforce instance from the website.
- Performed database administration on the Salesforce instance, including coding APEX Triggers and workflows.
- Used Linux to access the website files and database on the server.

**Willamalane Park and Recreation District, Springfield, OR**

**11/25/2008-10/01/2014**

Lifeguard Programmer

25 hrs/week

I supervised a shift of up to 10 people (8 Lifeguards, 1 Lead Lifeguard, and 2 receptionists) during the busy Saturday and Sunday afternoon play swims. I monitored and maintained the chemical and temperature levels of the pools.

**Relevant Skills and Accomplishments**

- Good communication skills and have experience interpreting information from “computer talk” to layman’s terms while speaking.
- Learned PHP during a three month internship and was hired on at the end of the internship.
- Supervised a busy shift of up to eleven people maintaining the safety of both the patrons and the employees and working with patrons and employees to settle disputes.
