Education

Projected Graduation: June 2021 **Bachelor of Science in Computer Science, Applied Option - Data Science.**
Oregon State University, Corvallis, Oregon

Technical Skills

Programming Languages C, C++, Python, LaTeX
Tools Microsoft Publisher

Experience

- December 2016 – Present **Manager, The Agrestic.**
- Ensure legal compliance in a changing and highly regulated industry by verifying that product labels are compliant to state standards, filling out testing information, and auditing physical and virtual inventories daily.
 - Manage workflow and assign duties for up to three staff.
 - Responsible for performing closing cash drawer audits, preparing cash drawers, opening and closing the store, and handling safe access.
 - Manage store website, social media, and marketing posts.
 - Designed custom labels using Zebra Design 2.
 - Promoted from Retail Associate to Shift Lead May 2017. Promoted to Manager April 2018.
- December 2018 – July 2019 **Underwater Remote Operated Vehicle Team, Linn Benton Community College.**
- Compiled the technical documents and team specification sheet for the 2019 International MATE ROV Competition.
 - Participated in the poolside demonstration team during the MATE competition.
 - Our team ranked 18th in the 2019 International MATE ROV Competition.
- June 2013 – September 2013 **Intern in Dr. Johnson's Solid State Chemistry Lab, University of Oregon.**
- Maintained a lab book for the duration of the internship to record daily operations.
 - Assisted with the creation of ferecrystal samples by preparing silicon substrates, rebuilding the physical vapor deposition chamber, preparing metals for vapor deposition, and annealing a portion of the samples to promote ferecrystal structure.
 - Evaluated vapor deposited sample composition by running x-rays scans and processing the resulting data.
 - Assisted with electron probe micro-analysis to determine the actual composition of the sample.
 - Presented work to 2013 first year students in the College of Chemical, Biological, and Environmental Engineering at Oregon State University.

Activities

- September 2019 – Present **Underwater Remote Operated Vehicle Team, Oregon State University.**
- September 2014 – June 2016 **Cool Shoes Ballroom Dance Team, Oregon State University.**
- September 2013 – June 2014 **New Shoes Ballroom Dance Team, Oregon State University.**
